MICHELLE GUOBADIA

HAZING MAKES YOU A BETTER GREEK
AND OTHER STUPID MYTHS

MICHELLE GUOBADIA addresses the myths and misconceptions of how hazing adds value to a fraternity/sorority chapter. With her biting wit and keen insight into Greek ritual, Michelle insists that a life-long bond can not be built by first tearing a person down or using ridicule and violence to make them feel they are part of a special community. She wants you to leave with a critical view of why hazing does not work, why it needs to end—before hazing ends your Greek community—and what the future will look like without it.
