

DISCUSSION QUESTIONS

MARK STERNER

- Has anyone lost a friend or family member to drunk driving?
Do you want to share your story with the group?
(Don't pressure anyone to share if they aren't comfortable.)
- You don't have to answer this question out loud if you don't want, but think about the answer. Have you ever driven when you shouldn't have, or ridden in a car with someone who has been drinking?
- Do any of you feel lucky right now? Will you ever do it again?
(Ask if they want to share, but again, don't pressure them to.)
- What will each of you do to help ensure that no one else you know has to suffer because of drunk driving?
- How did you feel listening to Mark's story?
How will having heard this presentation affect you in the long term?
- Why do people in our community choose to drink and drive given all of the statistics about impaired driving dangers? How can we lessen this behavior in our community?
- Could a situation like Mark's happen here? Why or why not?
