

## **SPECIAL NOTE!**

### ***DUI: A Powerful Lesson***

**This program deals with sensitive content and is highly emotional in nature. Students who have lost friends or loved ones to drunk driving may be particularly affected by this presentation. We *highly recommend* that you have counselors or trained peer educators on hand after the program to help students process the strong feelings that may arise. You may also choose to arrange some type of post-program discussion led by other students or university staff. Some suggested processing questions are listed on the following page. Thank you.**

## *DUI: A Powerful Lesson*

### **Processing Questions**

**1. Has anyone lost a friend or family member to drunk driving? Do you want to share your story with the group? (Don't pressure anyone to share if they aren't comfortable.)**

**2. You don't have to answer this question out loud if you don't want, but think about the answer. Have you ever driven when you shouldn't have, or ridden in a car with someone who has been drinking?**

**Do any of you feel lucky right now? Will you ever do it again? (Ask if they want to share, but again, don't pressure them to.)**

**3. What will each of you do to help ensure that no one else you know has to suffer because of drunk driving?**

**4. How did you feel listening to Mark's story? How will having heard this presentation affect you in the long term?**

**5. Why do people in our community choose to drink and drive given all of the statistics about impaired driving dangers? How can we lessen this behavior in our community?**

**6. Could a situation like Mark's happen here? Why or why not?**
